SECURITY ASSESSMENTS MORE THAN JUST A CHECKLIST ITEM

Traditionally, security considerations have been merely an afterthought (at best) in business planning and throughout the fiscal year. From senior management to customers and suppliers, security is perceived at best as a necessary evil. At worst, it's viewed as an expensive, unwanted intrusion into normal business operations.

An OST Credit Union Security Assessment will break down this perception.

The goal of an assessment is to make sure there are no chinks in the armor, no holes in your company's security. If there are, we'll find them, and we'll help you fix them – because that's what we do!

SO, WHY WORK WITH A NATIONAL FIRM LIKE OST?

Credit Union Specific OST has performed more credit union IT security assessments than anyone in the nation.

The Montgomery Method Our streamlined process was developed specifically for credit unions by IT security expert, Scott Montgomery.

24-Hour Turnaround We perform your security assessment and present the results along with recommendations the next day.

Hassle Free You won't even know we were working on your system.

Comparisons with Other Credit Unions We will show how your IT security stacks up against other credit unions.

Cost-Free Recommendations 95% of our recommendations will not cost you a dime.

We Will Not Embarrass Your IT People We want your systems to be secure and for everyone to feel good about it.

100% Satisfaction Our credit union customers have never left us for a competitor.

OST's Credit Union IT Security Assessments can help you meet your regulatory requirements, but more importantly will insure that your IT systems are safe and secure. *And that lets everyone rest easier, knowing that you're taking steps to keep your name out of the headlines.*

MONEY BACK GUARANTEE

If this isn't the BEST training experience you've ever had, we'll refund your money back 100%.

DON'T JUST TAKE OUR WORD...

"Prior, during and after our assessment, not one person from OST ever made me feel like they were trying to deliver a sales pitch. They understood that they were here to help me do my job better and run our business more efficiently. Today's employees, with many job responsibilities, appreciate anyone who can make their jobs easier!"

Sara Cottle
Operations Manager

ABOUT OST

OST (Open Systems Technologies) is an employee-owned, \$55 million company specializing in Credit Union IT Security. Since 2003, the company has logged close to 40% compounded growth in revenue and in its number of employees. In 2007, 2008, 2009, 2010 and 2011, OST was recognized in *INC. magazine's 5,000's Fastest Growing Private Companies*. OST was also listed on *CRN's FastGrowth100* in 2007, 2008 and 2009, and on the *Michigan 50 Companies to Watch* in 2009.
